

Technical Data Sheet

Product:

Tin-Lead-Anodes

For mixed galvanic tin plating
extruded

Chemical composition:

Tin-Lead-Alloy, e.g.. Sn 70% / Pb 30%

The chemical composition is by means of spectral analysis continuously monitored. We issue appropriate evidence. (e.g. Analysis certificate).

Physical properties:

Colour: grey – metallic
Density: depending on the alloy
Melting point: depending on the alloy

On request we will send you a specific technical data sheet for your required alloy / dimension

Standard – forms and –profiles:

Form	Profile
Round, massive	smooth
Tube	smooth
Stripe / Plate	both sides smooth one side profiled both sides profiled
Billet	oval, smooth oval, profiled

Various dimensions and profiles are available.
A detailed overview can be found on our website.

Other information:

We obtain our tin exclusively from conflict free smelters. On request we issue an appropriate confirmation.
